Subject: need help with testing the water of affected families in Dimock, Pa.--

Michael,
we need help with getting to the bottom of this water-contamination
issue in Dimock, Pa.
this Tues. , the 29th,
several affected families are being tested by Cabot's company,
AMEC,
to see what the methane levels are in their wells.
we need others there like the EPA, since the DEP is not doing
any further testing at this time, that I know about,
to test also and see what your results are
and to test for methane and other contaminants that
have been found in their water the past two to three years.

Can you please arrange this -- testing of the water--
and see what is there at this time before Cabot is allowed
to stop delivery of water to these families?

We can help you contact the families and meet you there,
also and witness this.

thanks, for your help with this,
see letters of concern below,

Vera Scroggins
Citizens for Clean Water
Susquehanna County, Pa.
570 663 9283
607 237 9685.

Subject: Re: SCGF DEP lets Cabot cut off freshwater to Dimock.

Maybe it's time to occupy DEP!

Jay

We all need to call Mike Dandrea, he is the Admin Assitant to EPA Region 3 Director Shawn Garvin. We need to call him

and put pressure on him to COME TO OUR COMMUNITY to do community outreach as DEP is failing us as highlighted by their accepting Cabot's story that water delivery to affected Dimock residents is not necessary. Mike's cell is 267-474-0155...his office # is below...call him and TELL him HE NEEDS TO COME NOW. Trish Taylor has done nothing except call me once 3 mos ago to tell me EPA is bureaucratic and moves slowly.

Trish,
Been meaning to check in to see how it's going with this group.
Can you contact them about this latest issue?

The hotline number is not appropriate. I called the "tip line" 877-919-4372 and was told someone would call me today or tomorrow.

Yes, this is a critical precedent. If I call the EPA hotline, 800-424-8802, to ask for their help and advice, who of you may I refer them to for detailed accurate information and background on this? [Ex. 6 - Personal Privacy](#) may I give them your number and e-mail?

We need to respond as a community in support of our right to clean drinking water. If we let Cabot(oil and gas) in complicity with our state contaminate one residentsdrinking water by shale gas extraction and not be responsible that is setting the precedent for ALL OF US at least in PA and maybe nationally. If Cabot is let of the hook for poisoning Dimock resident's drinking water and to NOT be held responsible for it and for replacing their ruined source with a clean source.....this is setting a precedent. We need to stand with Carter Rd residents and stand UP for our rights.

Subj: SCGF Just found out...

DEP has allowed Cabot to cease all water deliveries....now read Times article on explosive levels found in 5 homes this year...5 water wells in a 3 by 3 area is way too many to leave any of us feeling safe...
